

## PRODUCT INFO

# IJB DTV System

*Budget-Friendly and Simplified DTF Alternative - \$2,299*

### OVERVIEW

DTF has rapidly gained popularity in digital imaging, but potential buyers have been deterred by issues like poor support, challenges with white ink, high costs, and the learning curve associated with a new printing method. At InkjetBiz (IJB), we have the ideal solution: DTV, or direct-to-vinyl printing. While DTV may not be widely known, IJB has transformed the quality of vinyl printing with its systems approach. Our new IJB DTV system offers a comprehensive, ready-to-use package.

Here is an overview of the components included in IJB's DTV printing process:

- Printer, Inks, Digital Cutters, Software, Vinyl Materials, Digital Cutters, Heat Presses, Accessories and Training/Support

### IJB DTV SYSTEM COMPONENTS

The IJB DTV (Digital Transfer Vinyl) systems are meticulously crafted to provide a comprehensive solution that delivers exceptional transferred vinyl images, surpassing the performance of other image transfer technologies. This remarkable achievement is primarily attributed to the utilization of leading brands in the components incorporated within IJB's DTV offerings.

The brands of these components are as follows:

- **Printer:** 13" x 19" ET-8550 Six Color Printer
- **Ink:** OEM Pigment Ink
- **Digital Cutters:** Siser Juliet Contour Cutter
- **Software:** Siser's Leonardo and GO Pro Create Software
- **Vinyl Materials:** Siser's DTV Vinyl and TTD High Mask
- **Heat Presses:** The GO Xpress 1620AR Heat Press
- **Accessories:** Siser's EasyWeeder, EasyTweezers and Squeegee
- **Training and Support**

The integration of these leading brands and components within the IJB DTV system showcases the company's commitment to delivering outstanding results, with transferred vinyl images that exhibit superior performance characteristics compared to other image transfer technologies. With IJB's exceptional support and training resources, customers can confidently explore the full potential of the DTV system and achieve remarkable outcomes in their vinyl image transfers.

### KEY FEATURES

- Complete DTV System for Producing Full Color T-Shirts Starting at \$2,299
- Uses Standard OEM Pigment Inks - No White Ink Headaches
